

Don't Blink Photography Search Engine Optimization Project

The client "Don't Blink Photography" in Baltimore MD had been in business for three years. They had no substantial web presence other than a website they personally designed via the "Printroom", an online photographers gallery site. The site wasn't optimized for search and was also using "Flash" because of its "Wow" factor...not my words.

* **Note**:- Search Engines have had difficulty reading flash sites... it takes special care during the design and deployment process for them to be 'made search freindly'. We recommend HTML 5, a responsive design concept , that takes into account mobile devices, Javascript, and/or a content management system i.e Wordpress or Joomla and to use best SEO practices in design.

1. We set up a secondary "shadow" Wordpress site to use for ranking and backlink building for the client ,
 2. Claimed and optimized their online directory listings,
 3. Set up and optimized their Facebook and Twitter feeds.
 4. Set up a Google + page before they were incorporated with Google Places and
 5. Set up a Youtube Channel and created 3 videos from their photo galleries.
- Results.... Within 30 days we began to see a consistent rise in their profile within the search engines.

The screenshot shows a Google search interface with the query "cheap wedding photographers in maryland" in the search bar. The search results are displayed on the left side of the page, including a "Places" section with three listings: "Maryland Wedding Photographer | Profe...", "Affordable Wedding Photography", and "Affordable DJ s & Wedding Photographer s". A callout box on the right side of the screenshot states "Client Ranks on Page 1 for this search term 58 searches per month".

1st Page Keyword Rank for "Affordable Wedding photographers in maryland"

1st page rank for "Affordable Wedding Photographers in Maryland"

The screenshot shows a Google search results page for the query "affordable wedding photographers in maryland". The search bar at the top contains the query, and the results show approximately 17,300 results in 0.36 seconds. The first result is an advertisement for "Wedding Photographers" from photographybydavidsbridal.com, with a link to a \$595 wedding photography package. Below the ads, there are several organic search results for wedding photographers in Maryland, including "Maryland Wedding Photographer | Profe...", "Affordable Wedding Photography", "Affordable Faces", and "Affordable D.J.s & Wedding Photographer s". A map on the right side of the page shows the location of the search results in Maryland. A red box highlights the search query in the search bar, and a red arrow points from a text box on the left to the search bar. The text box on the left contains the text "Page 1 for (affordable wedding photographers in maryland)".
